Stephan von der Heyde appointed to the Management Board of Ed. Züblin AG

- **New ZÜBLIN board member for Germany, Benelux and Scandinavia**
- **Stephan von der Heyde to succeed Ulrich Weinmann**

The Supervisory Board of Ed. Züblin AG has appointed Stephan von der Heyde (58) as a full member of the Management Board with effect from 1 April 2021. Together with current board member Jens Borgschulte, von der Heyde

will assume commercial responsibility for ZÜBLIN's operating business in Germany, Benelux and Scandinavia. He succeeds Ulrich Weinmann, who has been named special representative for the STRABAG Group's business in Australia.

Stephan von der Heyde joined the STRABAG Group in 1990 as project clerk directly after completing his studies in business administration. He then held various management positions within the company, most recently as commercial manager of ZÜBLIN's Stuttgart subdivision, a position he took over in 2006.

“Stephan von der Heyde knows the construction business and the group inside out. I am convinced that he is the ideal person for this position,” says Dr. Thomas Birtel, CEO of STRABAG SE and Chairman of the Supervisory Board of Ed. Züblin AG.

The Management Board of Ed. Züblin AG thus continues to consist of eight persons. In addition to Stephan von der Heyde and Jens Borgschulte, these are Jörn Beckmann and Harald Supper (Technical Management Germany/Benelux/Scandinavia), Dr. Ulrich Klotz (Zentrale Technik), Edgar Schömig (Tunnelling), Dr. Alexander Tesche (Central Functions) and Jörg Wellmeyer (ZÜBLIN International).

*Stuttgart-based **Ed. Züblin AG** has about 15,000 employees and, with an annual output of more than € 4 billion, is one of Germany's largest construction companies. Since it was founded in 1898, ZÜBLIN has been successfully realising challenging construction projects in Germany and abroad and today is STRABAG Group's leading brand for building construction and civil engineering. The company's range of services comprises all construction-related tasks – from civil engineering, bridge building and tunnelling to complex turnkey construction to construction logistics, structural timber engineering and public-private partnerships. ZÜBLIN attaches great importance to partnership-based cooperation, and our ZÜBLIN teamconcept has proved its value as a successful partnering model for more than 25 years. Current construction projects of the company, a subsidiary of globally operating STRABAG SE, include EDGE East Side Berlin, the Rinsdorf and Rälsbach viaducts on the A45 motorway, and the Boyneburg Tunnel on the A44 motorway. More information is available at www.zueblin.de.*
